

The Process

All you have to do is compile and number your slides, Jpegs, & photographs in the order you wish them viewed – buy a 5B pencil, choose some music, and once received, the package will take approximately two weeks to complete & return.

The Procedure:

1. Make contact via email regarding any questions you might have about the process, or what you need to provide. I may already have your music of choice.
2. Forward the photos and the music to me, and on completion I will forward my account details for depositing into a Westpac account.
3. Once the payment has been confirmed, your originals, plus the traceable DVD package will be sent via NZ Couriers.
4. A Master Copy will be held on file for all future orders of duplicate sets.

A Basic Package (ideal for a 21st) is a Tribute containing up to 40 images and usually plays for 6 to 8 min. (2-3 songs) \$150.00
We try to aim for 10 sec. per photo.

Larger quantities for *“This is Your Life!”* epics (the fuller story) may have 41– 120 images play from 8 - 20 min. and cost an additional \$3 per extra photo.

Visit our website for the latest order form and price list.

Prices are as of Dec. 2009, and may change in future publications.

The Last Word

The effect is amazing, the music sets the emotional theme, and when it's blended into the transitions (fades), it's like watching a professional movie clip that leaves a lasting image, and most often - tears of Remembrance.

I have created tributes for many occasions, and sadly some for funerals. I receive many touching accolades after the initial viewing, additional orders support those opinions, but the one dampener I hear the most is...

“It was a pity those honoured weren't here to see how much we treasured their life”.

Make a *“This is Your Life”* moment for someone you love. It doesn't have to be a surprise, it could be a combined effort, a positive project that will spark memories of better days and tales that will be lost if not shared. Don't be shy about it, a lot may depend on you making the first move.

The Concept

Your images become ...

a moving movie of memories,
a music video,
a pictorial history,
a time capsule...

“A Photographic Tribute”.

Picture this...

...as music plays, we travel within the photo; zooming and panning, until the subject is fully appreciated. A transition could be a fade-in or page turn – one of 50 effects, as the next photo replaces the last in a seamless 24 frames-a-second movie motion, all coordinated to the music of your choice.

It truly is a movie made from stills.

Often seen in funeral services, it's now turning **Milestone Birthdays**, any birthday, into surprise *“This is Your Life!”* events!

Great for the anniversary of your parents, or **In Memory Of** a life passed that time now permits they be remembered in a more comprehensive way.

Photographs regardless of how small, are enlarged and copied. Hidden albums release their treasures.

Slides that have long since been viewed with projectors are now printable, and are once again exposed to new generations!

As well as the dvd movie disc, the photos and/or slides are scanned, enhanced, made printable, and saved onto a separate data cd for safekeeping and easy distribution. The tributes are produced onto a region free dvd, and both the dvd and cd are supplied in a durable twin DVD case.

The Right Occasion ?

Milestone Birthdays: 21st, 40th ..50th ..80th or the next birthday.

Weddings: their life before marriage is displayed during the signing of the register.

Wedding Anniversaries. Your parents have everything else.

As a gift, who needs a special time to bless someone? Think of friends currently in a Hospice and enjoy it with them!

Funerals. It inserts a spirit of adoration, softening sadness into pride.

In Memory Of: Maybe a year after their passing, a more complete *“This is Your Life”* could be compiled as time now permits.

A Pictorial History: Capture your Company's History including details on the back cover.

Your photos are saved onto a CD , and your tribute onto a region free DVD .

Comments from Clients

- “My daughter had thought she was saved from embarrassing stories at her 21st. Little did she know of the surprise dvd tribute when we gathered everyone into the lounge. I must compliment PTL on being very discrete when it came to the photos of her in her birthday suite, it topped off the evening perfectly.”
- “In the months that followed the funeral, it was therapeutic to watch. The tears finally subsided to smiles.”
- “My parents died 20 years apart, so at my sister's 60th, which became a sort of a family reunion, we played a tribute that honoured their lives together. Up until then it seemed like we only got together for funerals, well it became a night full of memories and each could take copies away. The grandchildren who had never meet Nana were now full of questions, so it made for a very reminiscent and informative evening.”
